

Dry Ice With Dish Soap Trick

Ingredients:

- Bowl
- Dry ice
- Water

Directions:

- Put water and a generous squirt of dish soap in bowl
- Use tongs to drop dry ice in bowl (do not touch dry ice)
- Watch the fun begin
- Play with bubbles

Hints:

- You must be 18 to purchase dry ice and be careful
- Keep out of reach of children
- Never touch dry ice; it will burn you
- Dry ice is frozen carbon dioxide; do not breath in the gases
- As it turns from solid to gas, it will expand a lot

- Dry ice should be used for fun and cool effects and dry ice must always be treated with respect!
